## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's amendments and arguments filed June 2, 2005 have been convincing in overcoming the rejections based on 35 USC 112 of the previous Office Action.

### ***Allowable Subject Matter***

Claims 38-58, 60 62 and 65-68 are allowed.

The following is an examiner's statement of reasons for allowance: As noted in the previous Office Action, the arguments of the previously filed Appeal Brief have been found convincing. In particular, the prior art fails to teach, or make obvious, the limitation of using the inflection points of 9 specifically different graphs as the operation range in an optimization process for pressure, temperature, and A/B ratio in a MOCVD process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
